

DH flex

THE NEW CAR MODEL OF THE
HOME LIFT

AN ARRAY OF POSSIBILITIES TO
DECORATE TO YOUR TASTE.

As we are aware of the importance of
meeting any need of each single client,
Hidral takes the design of cabin a further
step forward for its Passenger Lifting Platforms
DH with the new cabin model FLEX.

Apart from delivering it with a wide range
of finishing for both walls and floor, the
FLEX cabin now also includes the
possibility for the clients themselves to
decorate it according to their needs. In
this case, the delivered cabin is made
of galvanised sheet and fully prepared
to include any finishing.

Hidral

YOUR PARTNER FOR PRODUCT RANGE

CHARACTERISTICS

- Push button panel with stainless steel push buttons with an illuminated outer border installed on a brushed stainless steel plate.
- Brushed stainless steel skirting boards.*
- Matt white ceiling with epoxy-polyester paint and LED spotlights.
- Metal panels coated with highly wear- and detergent-resistant synthetic material or galvanised sheet to be decorated by the client.
- Vinyl flooring or car prepared for stone flooring.*
- Telephone or intercom in cabin prepared for connexion to the home line. Point-to-point intercom as an alternative.
- Half-mirror on the wall opposite the car entrance (optional).
- Display in car (optional).
- Straight handrail (optional).

WALLS

FLOORS

*If the cabin is made of galvanised sheet to be decorated during the works, it does not include either skirting boards or floors.
